DRASHTI THUMMAR

FRONT-END DEVELOPER

SUMMARY

I'm a passionate and detail-oriented Front-End Developer with a strong foundation in HTML, CSS, JavaScript, and modern frameworks like React. I'm skilled in building responsive, user-friendly, and visually appealing web interfaces that deliver seamless experiences across different devices. I enjoy turning creative ideas into clean, efficient code while following best practices and optimizing performance.

PROJECT WORK

Maserati Website

A sleek and responsive Maserati website designed to showcase luxury cars with elegant visuals, modern layouts, and a premium user experience. This project highlights clean frontend development, stylish design elements, and smooth responsiveness across different devices..

[View on GitHub](#)

Travel-Time

A creative and immersive time-travel multi-page website with modern design, smooth navigation, and responsive pages. It delivers a visually captivating experience while showcasing clean structure, engaging layouts, and strong frontend development skills.

[View on GitHub](#)

Nexa Website

A modern and fully responsive business website designed with a clean UI and smooth user experience. Built using HTML, CSS, Bootstrap, and JavaScript, this project includes dynamic sections like services, testimonials, pricing plans, and contact forms, making it a complete real-world business solution.
